

Windows'a Office365(Mail,Teams vb.) Hesabı Nasıl Eklenir?

1- Windows arama çubuğunda "Access work or School" u aratarak giriş yapıyor ve Connect e tıklıyoruz.

The screenshot shows the Windows search interface. The search bar contains "access work or school". The results are divided into "Best match" and "Search the web". The "Best match" section shows "Access work or school" with a briefcase icon and "System settings" below it. The "Search the web" section lists several related search results. A blue box highlights the "Access work or school" result. To the right of the search results, there is a large blue box containing the text "Access work or school" and a description: "Get access to resources like email, apps, and the network. Connecting means your work or school might control some things on this device, such as which settings you can change. For specific info about this, ask them." Below this text, there is a red link: "Sign in as an administrator to change device management settings." At the bottom of this box, there is a "Connect" button with a plus sign icon. Below the "Connect" button, there is a briefcase icon and the text "Connected to MERA AD domain" and "mera.com".

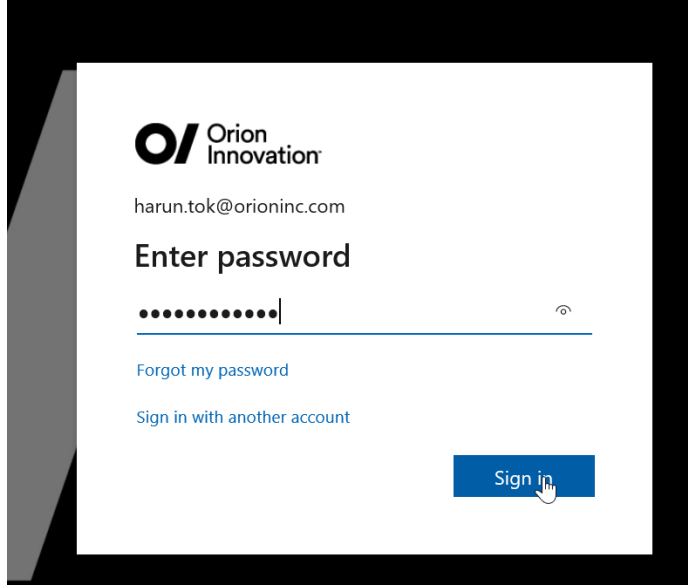

2- Mail adresimizi yazıyoruz. Mail adresimiz aynı zamanda Office 365 kullanıcı adıdır.
